

UPMC Health Plan Welcomes the Conemaugh Health System to Our Network

Conemaugh Health System, with five medical center locations in Cambria and Somerset counties, was added to UPMC Health Plan's provider network effective August 1, 2005. The addition of Conemaugh provides a strong base of clinical services as the Health Plan continues to develop its membership in the Johnstown area.

The addition of Conemaugh to our network fits well with our belief that providing good health care includes easy access to high-quality hospitals and physicians.

All members in our Commercial, Medicare, and Medical Assistance programs now have access to the following Conemaugh hospitals:

- Memorial Medical Center
- Memorial Downtown (formerly Lee Hospital)
- Miners Medical Center
- Meyersdale Medical Center
- Windber Medical Center

If you have any questions concerning Conemaugh or other aspects of the Health Plan's network, please call your UPMC Health Plan representative.

Sincerely,
Michael Taylor
Executive Director, Sales & Marketing
